STARR MAZER Crossover!. Meet Legend of Dungeon's cousin Tony!:

Hello Legend of Dungeon friends!

It's been nearly 5 years since the two of us released LoD, and we're ready to get another game out there! Our new game is called Super Tony Land!

[We've launched a Kickstarter](#)[robotloveskitty.com]

We want to add neat community inspired content like we did with LoD!

We're live right now, and have been live streaming a lot, so feel free to [come in and ask us questions](http://www.twitch.tv)[www.twitch.tv] about Legend of Dungeon or anything!

It's a physics based platformer with level editing/sharing like Super Mario Maker, lite storytelling like Cave Story, and

physics nonsense like Besiege.

We do have an update in the works still for Legend of Dungeon, with VR coming out of beta, and a few additions etc. So that's something to look forward to as well!

. Steam Keys for Humble Store are up!:

If you backed our Kickstarter, or bought the game on our website through the Humble Store, there is a Steam key waiting for you! Here's how to get it: <http://robotloveskitty.tumblr.com/post/58296821003/humble-store-steam-keys>

Help us get out there! Recommend LoD through Steam to your friends, it helps a ton!. **New Free Live Streaming "sister game" incoming!:**

We're super excited to announce that November will bring you all a new and exciting update to Legend of Dungeon, a **whole new game mode!** This is all thanks to our work on Upsilon Circuit; we've added crowd interaction!

Meet "Legend of Dungeon: Masters"

<http://robotloveskitty.tumblr.com/post/131900178211/announcement-legend-of-dungeon-masters>. **Legend of Dungeon at PAX Prime!:**

As some of you know, we'll be at PAX Prime this year! This time we're in the IndieMEGABOOTH!

<http://indiemegabooth.com/>

We have a very limited number of LoD posters to give away (you might have to play the game or own it to get one!).

We also have a giant tavern Dwarf cutout! You stand behind the cutout and we will take your picture. We will then post this picture on a special website for all the world to see.
